How It Works

Record a single song ("master recording") on this beat. The first 5000 copies that you sell or give away in the first 12 months will be royalty free! If royalties become due, the author requests to receive the full current statutory rate per unit. The author requests a written credit to be included in the title or credits section of the completed song.

You are permitted to perform this music in a live show or concert. You are also permitted to receive radio play under the terms of this license.

Also, synchronize this composition in a Music Video, or YouTube Video with the right to broadcast it Worldwide for a period of 2 years.

No "exclusive use" warranties are granted by this license.
